Abstract of DE3347548

An agent and method for the specific immunological determination of the C-terminal fragment 68-84 of parathyroid hormone besides intact parathyroid hormone 1-84, as well as the longer parathyroid hormone fragments 43-84 and 53-84 is described using a highly specific antibody which can be prepared by administration of the condensation product of a synthetic C-terminal fragment 68-84 to 72-84 of parathyroid hormone onto foreign protein.
